July 31, 2020

Dear Residents, Family Members and Staff:

We want to inform you that we have received confirmation on July 31, 2020, that a non-direct care clerical employee at Aloha Nursing Rehab Centre (ANRC) has tested positive for COVID-19.

I know this is unsettling; however, we have implemented our emergency response plan addressing this specific scenario and are working closely with the State of Hawaii Department of Health (DOH) to help ensure the safety of all who live and work within the ANRC.

We are in the process of identifying those who may have been in close contact with this employee prior to his/her onset of symptoms. Additionally, we have confirmed that this employee does not work at another employer. We will follow emergency response protocols, based on guidance from DOH and current national standards set by the Centers for Disease Control and Prevention (CDC), in determining what actions are necessary for our residents and employees.

As a reminder, please continue to practice safe infection prevention and control measures such as hand hygiene, face masking and physical distancing.

We will continue to provide you with updates as they become available. Please know that we are strictly adhering to all directions from the Hawaii State Department of Health.

We know that you may have questions and we encourage you to contact me at (808) 441-9542 or visit our website at [www.alohanursing.com](http://www.alohanursing.com).

Sincerely,

Darrin Schadel  
Administrator
